DokuWiki

DokuWiki is a standards compliant, simple to use [Wiki](#), mainly aimed at creating documentation of any kind. It is targeted at developer teams, workgroups and small companies. It has a simple but powerful [Синтаксис](#) which makes sure the datafiles remain readable outside the Wiki and eases the creation of structured texts. All data is stored in plain text files – no database is required.

Read the [DokuWiki Manual](#) to unleash the full power of DokuWiki.
